SUMMARY

DevOps Engineer with hands-on experience in automating, deploying, and managing applications in cloud environments. Proficient in using tools like Jenkins, Docker, Kubernetes, and AWS to streamline CI/CD pipelines and enhance operational efficiency. Demonstrated ability to collaborate with cross-functional teams to deliver scalable and reliable solutions. Strong problem-solving skills and a passion for continuous improvement and innovation.

EXPERIENCE

DevOps Engineer

Infosys   📅 06/2022 - Present   📍 Pune, India

- Managed and deployed containerized applications using Docker and Kubernetes, automating the setup of clusters and services with Kubernetes manifests.
- Used Maven for compilation of project in Jenkins.
- Implemented and maintained CI/CD pipelines using Jenkins and GitHub Actions to automate the build, test, and deployment processes, reducing manual intervention and speeding up delivery cycles.
- Set up and configured Prometheus for system and application monitoring; integrated Grafana dashboards to visualize key performance metrics and enable proactive issue resolution.
- Collaborated with development and QA teams via GitHub for version control and code review processes, ensured continuous delivery with minimal downtime and maximum uptime.

System Engineer

Infosys   📅 06/2021 - 05/2022   📍 Pune, India

- The Project involves migration of batch processing jobs to a new scheduling tool Tidal.
- It includes providing SME consultation on migration from legacy scheduling tool to a new age tools (ASG Zeke to Cisco Tidal Enterprise Scheduler).
- Creation & modification of New Jobs/Job Groups/ Calendar as per business requirement in Tidal scheduler.
- Performing weekly maintenance activities for Zeke (IPL).
- Managing and maintaining the integrity of complex production and automated schedules in Zeke.
- Sending for alerts for production issue. Escalated to next level if issue is not resolved in reasonable time. Handling IRT calls for production issues.
- Attending daily and weekly meeting with offshore, onshore & other stakeholders.
